Health Survey

Ready to get started?

Rally can help you move more, eat better, and feel great. We'll get to know you with a quick and easy health survey. After that, you'll get a chance to earn rewards as you engage in simple, healthy activities that you can fit into your daily routine.

How do I get started?

You'll first take our fast, fun health survey. We'll ask for simple information about your personal medical history and health – for example, your blood pressure and cholesterol levels, how much you exercise and sleep, and whether you have asthma or other conditions.

Later on, you may have the opportunity to participate in other activities (including Rally Missions) that help you learn about or better manage certain health conditions (like asthma or diabetes). Your participation may indicate that you have certain health conditions.

About Your Program

Here are all the awesome rewards offered by your company for completing the following healthy actions. Your overview will update automatically as you make progress. Some activities will take time to process, so don't worry if an action isn't updated right away. Rally will send you an email if your employer's rewards plan changes at any time. Got all that? Check out the FAQ if you have more questions.
